

Anchor Risk Management helps your insureds implement workplace safety measures to prevent injuries and reduce their exposure, should a workplace injury occur.

At Anchor Risk Management, our experienced team works to:

Protect your commercial insureds from themselves.

- We ask the right questions to prevent accidents before they happen.
- We make recommendations about subtle safety steps that are often overlooked.

Reduce your clients' exposure to liability for workplace injuries.

- We help companies implement strong, thorough safety programs to reduce liability.
- We offer safety validations for companies that implement solid safety practices.

Offer proactive, on-site safety consulting for your insureds

- We offer hands-on help to design and implement workplace safety programs
- We save companies money by reducing lost productivity, messy claims and potential litigation.

Educate agents and their insureds to recognize and correct hazards.

- We offer free seminars across the state on loss prevention, claims processing and ERISA claims.
- We train companies to conduct regular self inspections, recognize potential hazards and correct them before an employee gets hurt.

When it comes to workplace safety, you can't afford to slip up. Let Combined Group's Anchor Risk Management team put our solutions to work for you and the companies you insure. Contact us at (800) 275-3193 or visit www.combinedgroup.com to learn more.
